

Pregnancy Message:

I have known Dr Ken for years as my mother saw him for a variety of things while I was still in high school. I had an ectopic pregnancy in December 2017 which was both emotionally and physically devastating. Having fear and anxiety of a repeat ectopic I sought Dr Ken's treatment in hopes of a successful pregnancy in early 2019. During treatment I found my periods got lighter and easier to manage and my cycle became more regular, plus treatment allowed me the opportunity to relax and destress which I desperately needed. Once my husband and I started trying I became pregnant right away in June of 2019. I continued to see Dr Ken throughout my pregnancy and carried my baby boy full term and without issue, delivering him on March 2. My entire pregnancy was a breeze — no morning sickness, very little aches and pains, no trouble sleeping. I credit my acupuncture sessions as well as Dr Ken's at home regimen of teas and supplements with my ability to get pregnant right away and sustain my pregnancy. During sessions I loved to visualize myself with a big beautiful pregnant belly and being in that totally relaxed environment allowed my mind to really see myself pregnant. I am a big believer in Dr Ken and his treatments and cannot say enough good things about him both as a doctor and a person. I will continue to see him for future pregnancies and will (and already have) recommend him to any friends trying to get pregnant.
