

Dear Ken,

This is a letter of recommendation for your nomination be part of a new FDA Patient Engagement Committee.

“I was under the care of Dr Ken Grey for acupuncture treatments for a number of health issues resulting from an automobile accident. These include a dropped foot and neurological damage to my right leg as a result of several hip fractures and ultimately a hip replacement.

Dr. Grey was very caring and had excellent patient relationships. He kept me informed of the treatments and the progress to alleviate the issues of concern.

He also had a regular health radio program on National public radio. I participated in one of the sessions with him and he was very well-informed and handled his role as moderator in the most effective way for his listeners.

Based on my experiences with Dr. Grey, I highly recommend his nomination to be part of the new FDA patient engagement committee.

Thank you.

Bernard M (Bob) Shapiro

Chief of Staff of the Joint Committee on Taxation (JCT) of the US Congress from 1977-1981;

Assistant Chief of Staff from 1974-1977

Member of the Bar in the District of Columbia
