

Dr. Ken Grey,

I am writing this in the spirit of gratitude. When newly diagnosed with breast cancer, I found myself reluctant to follow traditional protocol for treatment.

A friend of mine was familiar with your work and recommended I talk with you.

I was excited to hear about your experience treating cancer patients and intrigued to learn that you perform acupuncture during surgical procedures.

Facing countless medical tests, surgery, and medication side effects, I was searching for alternative therapies to boost my immune system. I'll admit I was a little nervous about trying acupuncture, but I was pleasantly surprised to discover how incredibly relaxing it is.

Ultimately deciding against doing chemotherapy, I needed to focus on a healing mindset. Your knowledge in Oriental medicine and nutrition provided that foundation.

I believe with every fiber of my being that your treatments were instrumental in my triumph over cancer! You truly are a gifted physician- treating the body, mind, and spirit, with your healing hands and compassionate manner.

Thank you for all you do to make a difference!

Sincerely,

Bree Kayson
