To whom it may concern:

It is with great pleasure that I lend my voice in support of Dr. Ken Grey and Maximum Health Radio. I have known Dr. Grey as a family physician for many years. Given my role at the Nicklaus Children's Health Care Foundation, I have great appreciation for the unique skill set he brings to our community. I have always been able to count on Dr. Grey to clearly articulate the specialized service lines Nicklaus Children's Hospital has to offer the children and families living in Palm Beach County and beyond.

I admire Dr. Grey's ability to interact with sponsors, guests and most importantly, sharing the message to the listening audience, through his "Quality Living" radio program. He is entertaining, engaging, energetic and informative. Truly, one of a kind!

Jack and Barbara Nicklaus join me in acknowledging Dr. Grey's common focus on health and well-being - especially as it relates to children. As a father and care provider, he understands that children are not miniature adults, and they require specialized care.

We appreciate his voice in bridging the gap to bring awareness to the programs and services that are available to our community so that we, and other health providers, are not "the best kept secrets" in town.

Sincerely,

Patty McDonald
President & CEO
